

Historic Mile Markers:
Catskill Turnpike,
aka
Susquehanna Turnpike

Updated 7/1/2018

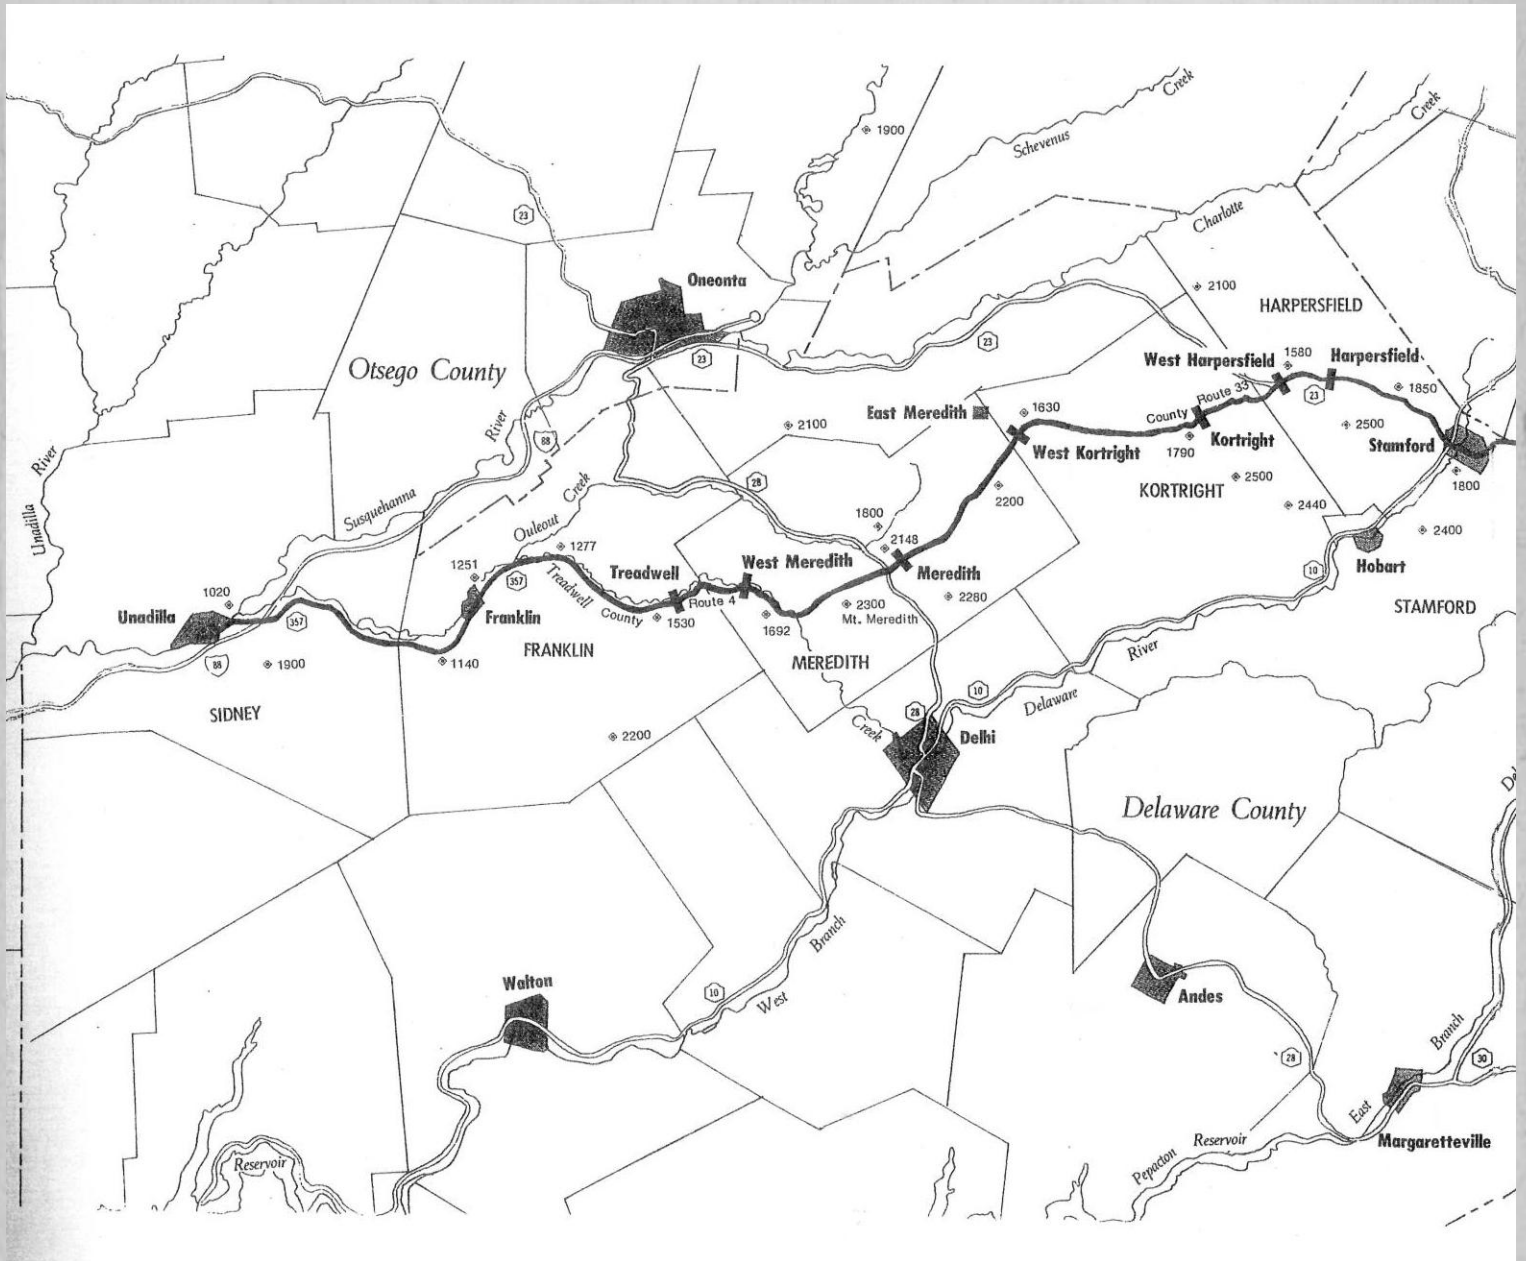

Overview Map

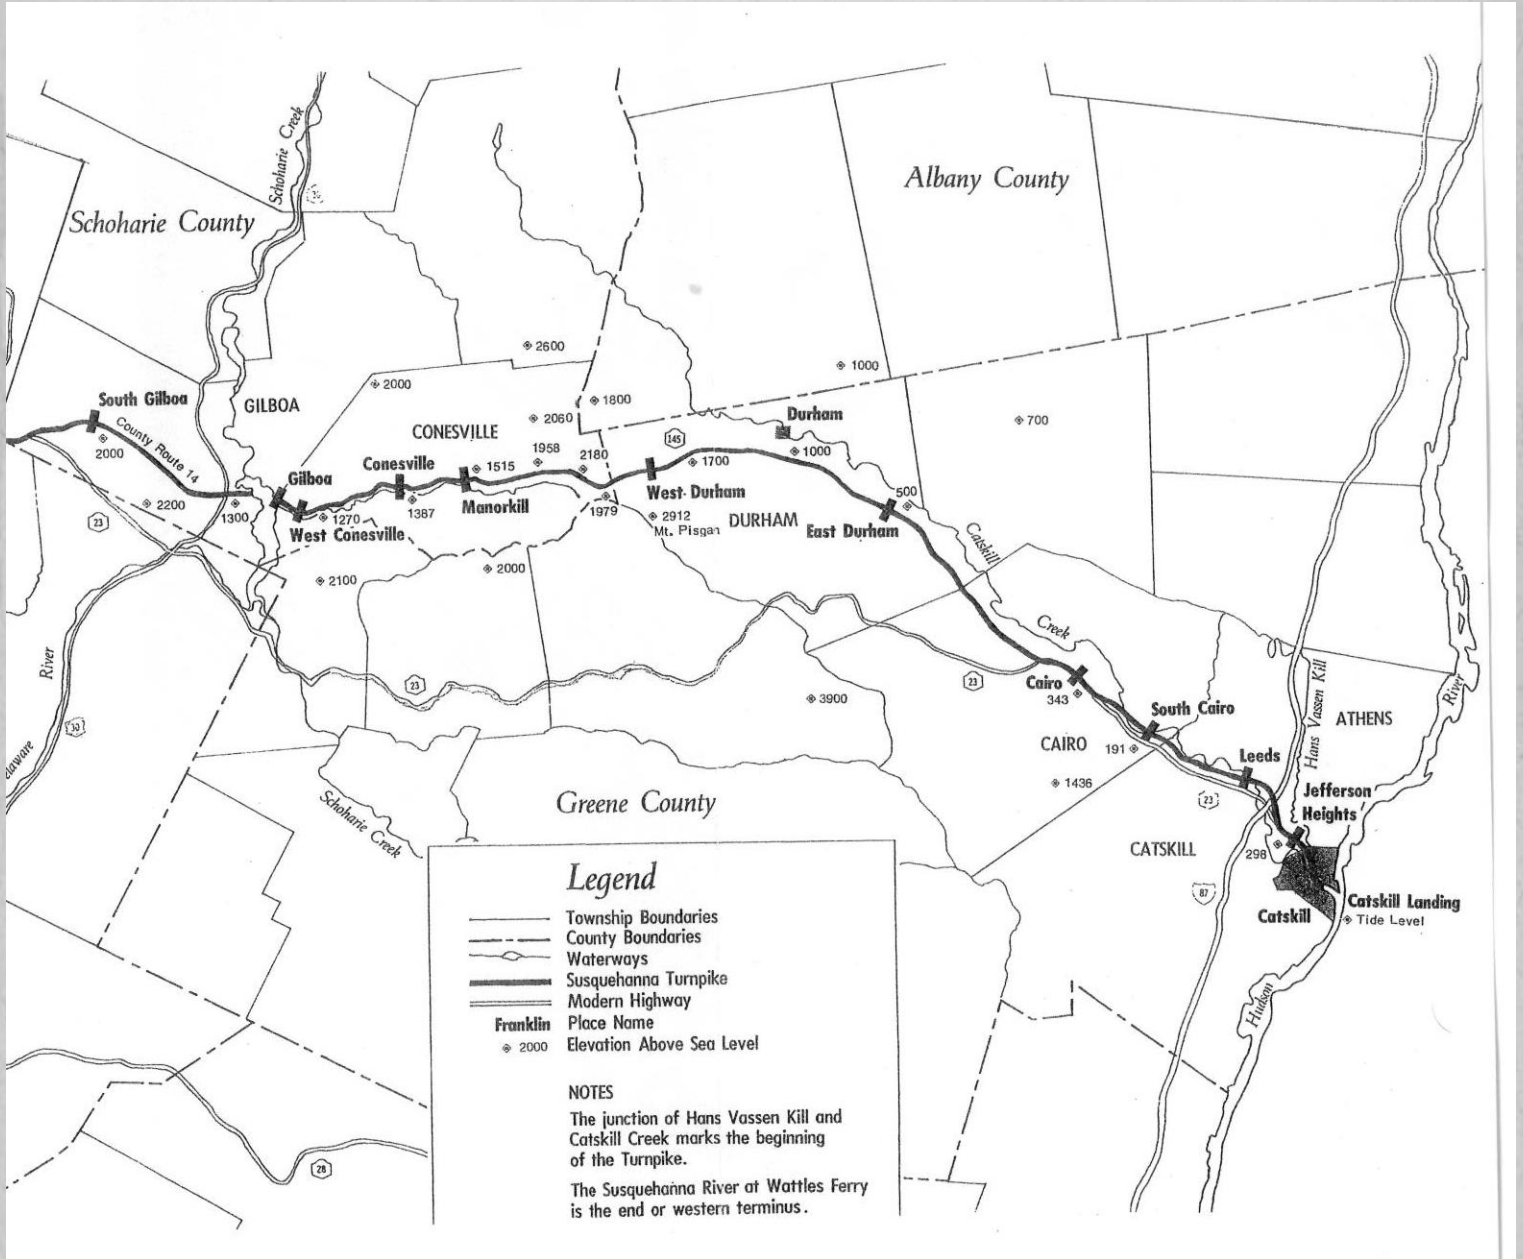

From Mike Manning:

The Catskill Turnpike is also known, and probably better known, as the Susquehanna Turnpike. It runs between the Hudson and Susquehanna Rivers with the western terminus being at Unadilla NY. I drove the route in mid- December 2017 from west to east. The milestones run east to west, contrary to custom. As you can see from the photos snow was encountered. When I found a milestone I clocked one mile intervals eastward. I did no backtracking westward (next time). The route is not totally intact. The tollhouse was relocated from Stamford to the Delaware County Historical Society in Delhi NY. The unknown milestone is somewhere between Franklin and Treadwell. The NY Route 28 crossing in Meredith is the only place where I saw a sign labeling the route. I again encountered the problem where a 3 looks too much like a 5. Milestone 13 looks like 15 but clocks out where 13 should be. My source was “West through the Catskills : the story of the Susquehanna Turnpike” by Dorothy Kubik.
